

CERT 19-07

May 11, 2007

**PUBLIC NOTICE**

**S. C. DEPARTMENT OF HEALTH AND ENVIRONMENTAL CONTROL  
OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT  
COASTAL ZONE MANAGEMENT CONSISTENCY CERTIFICATION**

In accordance with the S. C. Coastal Zone Management Act of 1977, as amended, Chapter V, S. C. Coastal Zone Management Program Document and the S. C. Administrative Procedures Act, the following projects have been received for determination of consistency with the S. C. Coastal Zone Management Program. Information on the Projects is available for public inspection at the:

*Office of Ocean and Coastal Resource Management  
S. C. Department of Health and Environmental Control  
1362 McMillan Avenue, Suite 400  
Charleston, South Carolina 29405*

Comments must be received within ten days of the date of this public notice by May 21, 2007. The following projects are listed by project name or applicant, location, type of activity, type of permit, and permitting agency (see attached list of abbreviations and keys):

**Beaufort County**

Palmetto Bluff East Lake, Phase 2 Plat 14, Permit ID# 07-01-12-01I, Permit Number SCR10G180, TMS# R614-045-000-0021-0000, WW, SCDHEC# 7066/58791 WS, SCDHEC 7066/58793, located off of Whitetail Deer Road and Pine Lands Road, Bluffton, OCRM (SW) (WW/WS)

Care Core Facility, Permit ID# 07-06-04-07A, Permit Number SCR10G175, TMS# R610-030-000-1652-0000, located on Buckwalter Parkway, Bluffton, OCRM (SW)

H. E. McCracken Middle School Additions-Alternate Parking, Permit ID# 07-06-10-12A, Permit Number SCR10G172, TMS# R610-038-000-0049-0000, located at 250 H. E. McCracken Circle, Bluffton, OCRM (SW)

Beaufort Municipal Center, Permit ID# 07-07-04-08, Permit Number SCR10G170, TMS# R120-001-000-0167, 0182, 0181, 0180, 0179, 0178-0000 and R120-003-000-002A, 002B, 002C, 002D, 0003, 0001-0000, located on Boundary Street between Palmetto and Sycamore, Beaufort, OCRM (SW)

Magnolia Village, Phase II, Permit ID# 07-07-04-09, Permit Number SCR10G173, TMS# R610-039-000-0054-0000, SCDHEC# 58782/40529, located off of Highway 46 and Dr. Mellichamp, Bluffton, OCRM (SW) (WW/WS)

Caffino Coffee, Permit ID# 07-07-05-01, Permit Number SCR10G177, TMS# R122-001-000-271A-0000, located at 2153 Boundary Street, Beaufort, OCRM (SW)

**Berkeley County**

Clements Ferry Road GME, ID# 08-07-05-01, Permit Number SCR10G160, TMS# N/A, located off of Clements Ferry Road, OCRM (SW)

American LaFrance GME, ID# 08-07-05-02, Permit Number, SCR10G162, TMS# N/A, located off of Business Park Road and Newton Way, OCRM (SW)

TJS Realty, LLC, SCDHEC# 40627/58796, located off of Highway 17A and Old Summerville Road, OCRM (WW)

BCW&SA/Central Berkeley WWTP, SCDHEC# 40607/58790, located off of Peduzzi Drive, OCRM (Other)

## **Charleston County**

Century Development Office, Permit ID# 10-06-09-16D, Permit Number SCR10G185, TMS# 400-00-00-122, located off of the Interstate-526 to International Blvd, left to Centre Pointe Drive, North Charleston, OCRM (SW)  
Palmetto Heritage Bank, Permit ID# 10-05-11-17A, Permit Number SCR10G184, TMS# 598-13-00-310, located off of Highway 17 North at Ivy Hall, Mount Pleasant, OCRM (SW)  
Lakeside Park at Brownswood Road, ID# 10-07-04-03, Permit Number SCR10F907, TMS# 279-00-00-225, 249, & 405, located at 1463 Brownswood Road, OCRM (SW)  
TMS# 023-00-00-038, ID# 10-07-04-12, Permit Number SCR10G030, TMS# 023-00-00-038, located at the corner of Highway 174 and Crisp Road, OCRM (SW)  
State Credit Union, ID# 10-07-04-20, Permit Number SCR10G134, TMS# 475-08-00-024, located at 6750 Rivers Avenue, North Charleston, OCRM (SW)  
Whipple Road Widening Project, Permit ID# 10-07-05-01, Permit Number SCR10G181, TMS# 562-01-00-085, located between Long Point Road and Mathis Ferry Road, Mount Pleasant, OCRM (SW)  
Seabrook Island Pedestrian Pathway, ID# 10-07-05-02, Permit Number SCR10G183, TMS# 204-00-00-113, 205-00-00-001, 005, & 014, located at 2001 Seabrook Island Road, Seabrook Island, OCRM (SW)  
College of Charleston-New Science Building, Permit ID# 10-07-05-03, Permit Number SCR10G189, TMS# 460-16-03-080, 081, 088, & 089, WW/WS, SCDHEC# 40687/58810, located intersection of Calhoun and Coming Street, Charleston, OCRM (SW) (WS/WW)  
Humphrey Court, SCDHEC# 40468/58764, located at the intersection of Humphrey Court and Porters Court, OCRM (WW/WS)  
2019 Woodland Shores Road, WW, SCDHEC# 40608/58792, WS, SCDHEC# 40608/58794, located at 2019 Woodland Shores Road, OCRM (WW/WS)  
Seacrest Marine Holdings, LLC, SCDHEC# 40587/58788, located at 1044 Pierside Street, OCRM (Other)

## **Dorchester County**

Shoppes at Coosaw Creek, Permit ID# 18-07-03-07, Permit Number SCR10F736, TMS# 172-00-00-108, WW/WS, SCDHEC# 32745/58804, located off of Dorchester Road at the intersection of Club Course Drive, North Charleston OCRM (SW) (WW/WS)

## **Georgetown County**

Clearwater Place, ID# 22-07-04-09, Permit Number SCR10G138, TMS# 04-0204-008-00-00, located off of Clearwater Drive and Waverly Road, OCRM (SW)

## **Horry County**

Grier Crossing, Permit ID# 26-07-03-09, Permit Number SCR10F698, TMS# 096-00-02-065, WS/WS, SCDHEC# 38628/58051, located off of Long Avenue and Highway 65, Conway, OCRM (SW) (WS/WW)

**Note: This project is proposed to impact 0.13 acres of federally non-jurisdictional wetlands. These proposed impacts require approval under the SCCZM program. This plan will fill all of a 0.13 acres wetland for a total impact of 0.13 acres. Mitigation will be provided for these proposed impacts by purchase of credits.**

Highway 17S Gas Main, ID# 26-07-05-02, Permit Number SCR10G167, TMS# N/A, located off of 17S @ 48<sup>th</sup> Street South, N. Myrtle Beach, OCRM (SW)  
Mill Pond Road Sidewalk Project, SCDHEC# 40507/58775, located off of Mill Pond Road, Conway, OCRM (Other)

## **Jasper County**

Arching Oaks, Phase 1, Permit ID# 27-07-05-01, Permit Number SCR10G174, TMS# 062-00-06-006, SCDHEC# 58784/40547, located off of Highway 278 and Live Oak Drive, Ridgeland, OCRM (SW) (WW/WS)  
BJWSA/Hardeeville WWTP, SCDHEC# 58777/40527, located in Jasper County, OCRM (WW)

## **SPECIAL NOTES**

**\*DMPs**                Dock Master Plans - OCRM is reviewing the listed DMPs for planning purposes only. Permitting decisions will occur when future dock applications are processed by OCRM for individual property owners. This document is used as a planning tool it is not subject to the appeal. OCRM welcomes comments from the public on these planning documents.

**\*\*WMPs**                Wetland Master Plans – OCRM is reviewing the listed WMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM, which include impacts to freshwater wetlands. This document is used as a planning tool; it is not subject to appeal. OCRM welcomes comments from the public on these planning documents.

**\*\*\*SWMPs**            Stormwater Master Plans – OCRM is reviewing the listed SWMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM. OCRM welcomes comments from the public on these planning documents.

**\*\*\*\*PERs**             Preliminary Engineering Reports – OCRM is reviewing the lists PERs for the purpose of commenting to other sections of DHEC concerning this document. OCRM will not be issuing a coastal zone consistency certification at this time but providing comments. If this proposal moves forward to the permitting process, OCRM would at that time do a full coastal zone consistency review.

### C. Impaired Waterbodies

Do stormwater (SW) discharges from the site drain to a watershed that drains to a DHEC WQ monitoring site (WQMS)...

1. Listed on the most current 303(d) List for Impaired Waters? ☒ Yes ☐ No
  - a. If yes for (1), is there an unimpaired WQMS between your site and the impaired WQMS? ☐ Yes ☒ No
  - b. If no for (a), list the waterbody. Kingston Lake List the impairment(s). EC
  - c. Will construction SW discharges from your site contain the pollutant(s) of impairment? ☐ Yes ☒ No
  - d. If yes for (c), will use of the selected BMPs ensure that the site's discharges will not contribute to or cause further water quality standard violations? ☐ Yes ☐ No
2. For which a TMDL(s) has been developed? ☐ Yes ☒ No
  - a. If yes for (2), list the waterbody. \_\_\_\_\_ List the impairment(s). \_\_\_\_\_
  - b. Has the standard been attained for the impairment(s)? ☐ Yes ☒ No
  - c. If no for (b), will construction SW discharges from your site contain the pollutant of impairment?  
☐ Yes ☒ No
  - d. If yes for (c), are your discharges consistent with the assumptions and requirements of the TMDL(s)?  
☐ Yes ☐ No
  - e. If no for (d), will use of the selected BMPs ensure that the site's discharges will not contribute to or cause further water quality standard violations? ☐ Yes ☐ No

- D. Are S.C. Navigable Waters (SCNW) on the site? ☐ Yes ☒ No If yes, list the SCNW: \_\_\_\_\_  
Will any construction activities cross over or occur in, under, or through the SCNW? ☐ Yes ☒ No  
If yes, then describe activity (e.g., road crossing, sub aqueous utility line). \_\_\_\_\_  
Has an SCNW permit been issued for this site? ☐ Yes, for all activities ☐ Yes, for some activities ☒ No  
If yes, list permit number and corresponding activities. \_\_\_\_\_

- B. I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

I hereby certify that all land-disturbing construction and associated activity pertaining to this site shall be accomplished pursuant to and in keeping with the terms and conditions of the approved plans and SCR100000. I also certify that a responsible person will be assigned to the project for day-to-day control. I hereby grant authorization to the Department of Health and Environmental Control and/or the local implementing agency the right of access to the site at all times for the purpose of on site inspections during the course of construction and to perform maintenance inspections following the completion of the land-disturbing activity. (See Section 122.22 of S.C. Reg. 61-9 for signatory authority information.)

## PUBLIC NOTICE OF APPEAL

TO: All Interested Parties  
FROM: S.C. Department of Health and Environmental Control  
SUBJ: Mary R. Lever, OCRM-06-557  
DATE: May 11, 2007

---

The Department has issued a permit to Mary Ruth Lever for a private dock on and adjacent to Parsonage Creek at 379 Parsonage Lane, Murrells Inlet, Georgetown County, South Carolina.

Mary Lever has requested a contested case hearing before the Administrative Law Court.

Intervenors: A motion for leave to intervene, with the \$25 filing fee, shall be filed with the South Carolina Administrative Law Court, Edgar A. Brown Building, 1205 Pendleton Street, Suite 224, Columbia, South Carolina 29201, (telephone 734-0550) and served on all parties and shall state the grounds for the proposed intervention, the position and interest of the proposed intervenor, and the possible impact of the intervention on the proceedings. A proposed answer or position in intervention shall be attached to the motion.

Any person may intervene in any pending contested case hearing upon a showing that:

- (1) the movant will be aggrieved or adversely affected by the final order;
- (2) the interests of the movant are not being adequately represented by existing parties, or that it is otherwise entitled to intervene;
- (3) that intervention will not unduly prolong the proceedings or otherwise prejudice the rights of existing parties.

The motion for leave to intervene shall be filed as early in the proceedings as possible to avoid adverse impact on the existing parties or the disposition of the proceedings. Unless otherwise ordered by the administrative law judge, the motion to intervene shall be filed at least twenty (20) days before the hearing. Any later motion shall contain a statement of good cause for the failure to intervene earlier.

A person granted leave to intervene is a party to the proceeding. The intervenor shall be bound by any agreement, arrangement or other matter previously determined in the case. The order granting intervention may restrict the issues to be raised or otherwise condition the intervenor's participation in the proceeding. If appropriate, the administrative law judge may order consolidation of petitions and briefs and limit the number of representatives allowed to participate in the proceedings.

## **PUBLIC NOTICE AMENDMENT REQUEST**

The permittee for P/N# OCRM-06-348-M, **Dexter Bunch**, has requested an amendment to that issued permit. Specifically, the applicant proposes to change the dimensions of the permitted 20' by 20' fixed pierhead to a 19' by 19' covered structure and to reconfigure the 10' by 30' floating dock to a 16' by 25' U-shaped structure. The applicant also proposes to install a single mooring pile 30' upstream of the reconfigured floating dock. The proposed amendment is for modifications to a private recreational use dock, on and adjacent to Bohicket Creek at Lot 44, Anchor Watch Drive, Anchorage Plantation Subdivision, Wadmalaw Island, Charleston County, South Carolina.

Written comments will be received on this amendment request until May 21, 2007 at the address listed below. For further information please contact the project manager, Fred Mallett, 843-953-0236.

## **PUBLIC NOTICE AMENDMENT REQUEST**

The permittee for P/N# OCRM-06-062-M, Jerry Zucker, has requested an amendment to that issued permit. Specifically, the applicant proposes to change the intended use of the approved dock from, private recreational to a joint use structure. The applicant also proposes to install an additional 16' by 18' eight-pile boatlift on the upstream side of the existing fixed pierhead, landward of the 6' by 40' floating dock. **With approval, the applicant proposes to forgo any future permits for his adjoining parcel, TMS # 346-07-00-001.** The proposed amendment is for modifications to a private recreational use dock on the Stono River at 1429 Headquarters Plantation Drive, Headquarters Plantation Subdivision, Johns Island, Charleston County, South Carolina.

Written comments will be received on this amendment request until May 21, 2007 at the address listed below. For further information please contact the project manager, Fred Mallett, 843-953-0236.

**Request to Amend a Minor OCRM Critical Area Permit**

Name & Address: Jerry Zucker  
40 Cotton Harness P.C.  
636-G Long Point Rd #204 Mt. Pleasant, S.C.  
(843) 856-2627 29464  
Phone Number:  
Permit Number: OCRM-06-062 M

Please write a detailed description of the changes that you would like to make:

Amend existing permit to create a joint use  
dock permit. Add the 16' x 18' boat lift to  
the joint dock. Lot # 346-00-00-001 will  
forfeit a dock to the tributary in exchange.

Current Adjacent Property Owners (Must include current address):

### Notification of Public Notice

Enclosed are public notices issued by the SCDHEC Office of Ocean and Coastal Resource Management. All interested parties are allowed 30 days for major developments and 15 days for minor developments after receipt of the public notices to file written comments to the OCRM pertaining to the applications. Only those comments received within this period must be reviewed by the OCRM in processing the permit application. Any person wishing notification of the initial OCRM decision on any specific public notice must make written request within the designated review period for that public notice.

APPLICANT	PUBLIC NOTICE NUMBER	SUSPENSE DATE

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT  
PERMIT APPLICATION PUBLIC NOTICE**

**May 11, 2007**

**Permit Number:** OCRM-07-011-M  
**Permit ID:** 57147

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

**APPLICANT:** Raymond T. Rufo  
434 Waverly Drive  
Augusta, GA 30909

**LOCATION:** On and adjacent to Big Bay Creek at 3603, A & B Yacht Club Road, Edisto Beach, Colleton County, South Carolina.  
TMS#: 354-03-00-130.000 & 354-03-00-002.000.

**WORK:** The work as proposed and shown on the attached plans consists of replacing an existing seawall and a boat ramp. Specifically, the applicant proposes to replace 214' of timber bulkhead with a 3' high by 214' long timber bulkhead with wing walls at their existing location. The existing 13.5' by 53' concrete boat ramp will be removed and replaced within the wingwalls of the timber bulkhead. The purpose of the proposed activities are for the property owner's private use along with erosion control.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

*To assure review by OCRM, comments regarding this application must be received by OCRM on or before June 10, 2007. For further information please contact the project manager for this activity, Fred Mallett at 843-953-0236.*

**PERMIT APPLICATION PUBLIC NOTICE**

*May 11, 2007*

**Permit Number:** OCRM-07-107-F  
**Permit ID:** 58479

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

**APPLICANT:** Stuart Cass  
C/O Billy Bryan  
2570 John Boone Ct.  
Mount Pleasant, SC 29466

**LOCATION:** On and adjacent to Martins Creek at 165 Royal Assembly Dr., Charleston, Berkeley County, South Carolina.  
TMS#: 268-10-01-005.

**WORK:** The work as proposed and shown on the attached plans consists of constructing a dock. Specifically, the applicant seeks to construct a 4' x 342' walkway with handrails and cantilevered benches. Floodside of the walkway, a ramp will lead to an 8' x 20' floating dock. Ebbside of the walkway, a 12' x 12', four-pile boatlift is proposed. The work as described is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

*To assure review by OCRM, comments regarding this application must be received by OCRM on or before May 26, 2007. For further information please contact the project manager for this activity, Amanda Flake at 843-953-0258.*

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT**  
**PERMIT APPLICATION PUBLIC NOTICE**

**May 11, 2007**

**Permit Number:** OCRM-07-109-M  
**Permit ID:** 58450

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

**APPLICANT:** Leigh Smalley & Jerry Pettus  
4116 Cobbler Road  
Meggett, SC 29449

**LOCATION:** On and adjacent to Church Creek at between Lots 46 & 47 Arthur Gaillard Lane, Battery Gailliard Subdivision, Charleston, Charleston County, South Carolina.  
TMS#: 355-13-00-049 & 355-13-00-050.

**WORK:** The work as proposed and shown on the attached plans consists of constructing a dock. Specifically, the structure will have a 4' by 12' walkway with handrails leading to an access ramp and a 10' by 12' floating dock. The purpose of the activity is for the applicant's joint recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

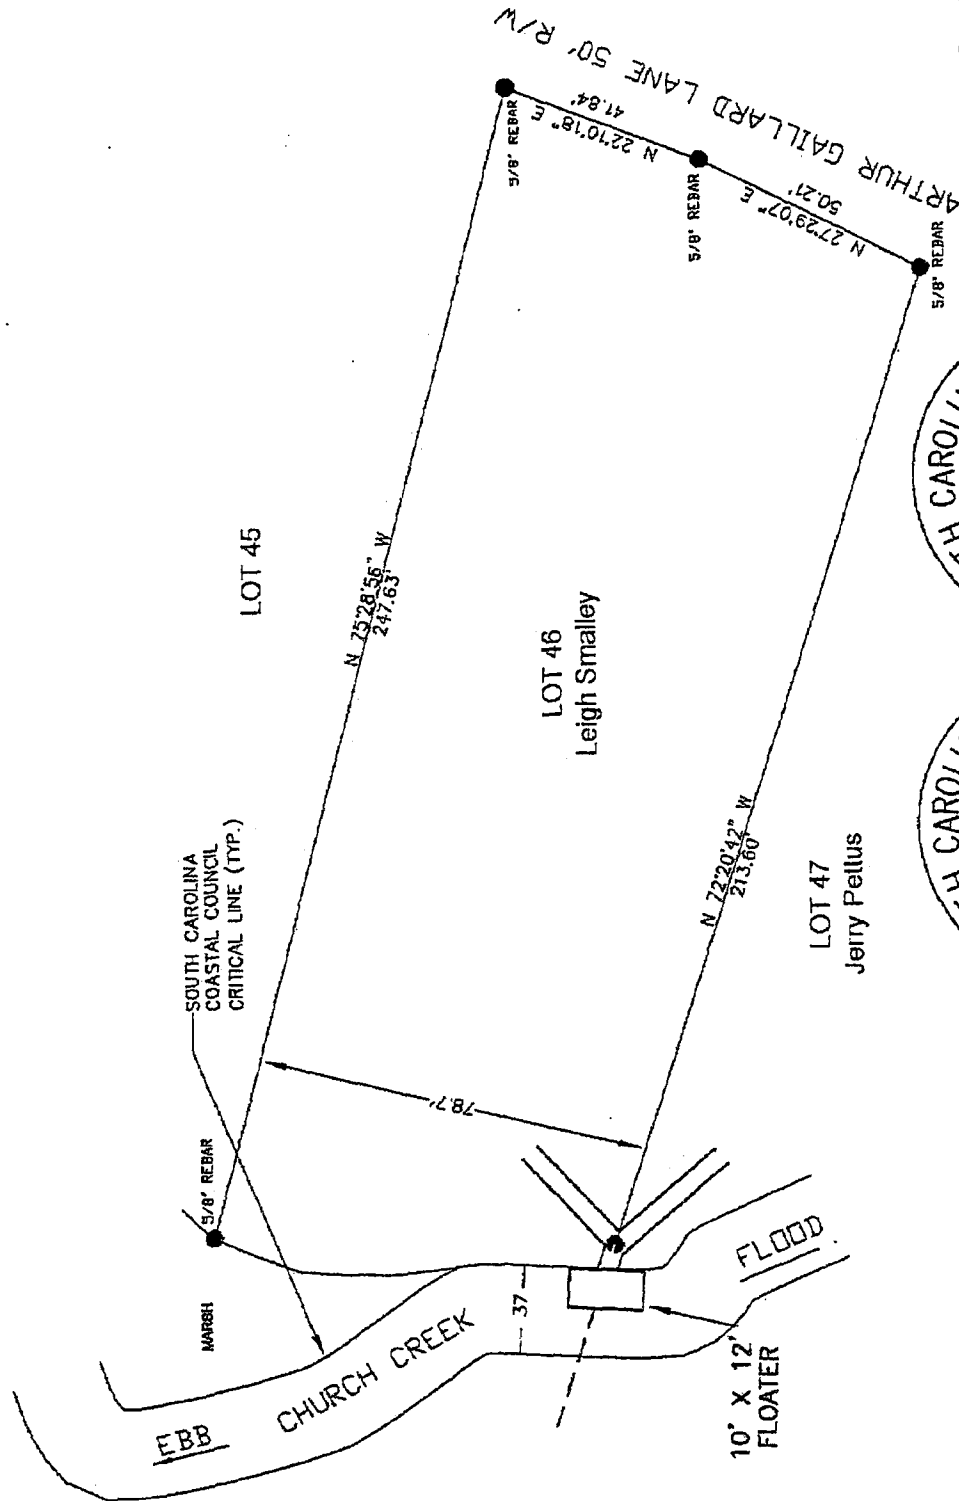

*To assure review by OCRM, comments regarding this application must be received by OCRM on or before May 26, 2007. For further information please contact the project manager for this activity, Fred Mallett at 843-953-0236.*

**PERMIT APPLICATION PUBLIC NOTICE**

May 11, 2007

Permit Number: OCRM-07-118-F  
Permit ID: 58571

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

**APPLICANT:** Kenneth O. Grayson  
C/O George A. Z. Johnson, Jr., Inc.  
6171 Savannah Hwy.  
Ravenel, SC 29470

**LOCATION:** On and adjacent to Simpson Creek at 863 Century Pl., Charleston, Charleston County,  
South Carolina.  
TMS#: 426-09-00-052.

**WORK:** The work as proposed and shown on the attached plans consists of modifying an existing dock. Specifically, the applicant seeks to add handrails along one side of the existing walkway. New additions include a 4' x 8' pierhead with an 8' x 8' roof over the pierhead and a portion of the walkway. Floodside of the existing floating dock, an 8' x 20' floating boatlift is proposed. The work as described is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

*To assure review by OCRM, comments regarding this application must be received by OCRM on or before May 26, 2007. For further information please contact the project manager for this activity, Amanda Flake at 843-953-0258.*

**PERMIT APPLICATION PUBLIC NOTICE**

**May 11, 2007**

**Permit Number:** OCRM-07-128-F  
**Permit ID:** 58688

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

**APPLICANT:** Charles R. Palmer  
C/O Dockmasters Construction, LLC  
491 Main Rd.  
Johns Island, SC 29455

**LOCATION:** On and adjacent to Wappoo Creek at 29 Broughton Rd., Charleston, Charleston County, South Carolina.  
TMS#: 421-14-00-024.

**WORK:** The work as proposed and shown on the attached plans consists of constructing a dock. Specifically, the applicant seeks to construct a 4' x 529' walkway with handrails leading to a 20' x 20' covered pierhead with handrails and benches. Channelward of the pierhead, a 3' x 20' ramp will lead to a 10' x 20' floating dock. Ebbside, a 12.5' x 12.5', four-pile boatlift is proposed. The work as described is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

**PERMIT APPLICATION PUBLIC NOTICE**

*May 11, 2007*

Permit Number: OCRM-07-853  
Permit ID: 58754

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

**APPLICANT:** Katherine J Snyder  
19 Belle Isle Farms Drive  
Lady's Island SC 29907

**LOCATION:** On and adjacent to a tributary of the Morgan River at 31 Belle Isle Farms Drive, Lady's Island, Beaufort County, South Carolina.  
TMS#: R200-011-000-0044-0000.

**WORK:** The work proposed consists of constructing a private dock. The proposed structure will have a 4'x58' walkway with handrails leading to a 10'x10' fixed pierhead. The purpose for the dock is for the owner's private recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

*To assure review by OCRM, comments regarding this application must be received by OCRM on or before May 26, 2007.*

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT  
PERMIT APPLICATION PUBLIC NOTICE**

**May 11, 2007**

**Permit Number:** OCRM-07-854  
**Permit ID:** 58779

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

**APPLICANT:** Kirkland & Wolfson  
C/o Sea Island Dock Builders LLC  
77 Ashton Dr  
St Helena Island SC 29920

**LOCATION:** On and adjacent to Brickyard Creek at Lots 1 And 2 Egret Island, Lady's Island, Beaufort County, South Carolina.  
TMS#: R200-004-000-0283-0000, R200-004-000-0197-0000.

**WORK:** The work proposed consists of making additions to an existing private joint use dock. Proposed is the addition of two 13'x13' 4 pile boatlifts off each end of the existing 8'x20' floating docks. The purpose for the dock addition is for the owner's private joint use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

*To assure review by OCRM, comments regarding this application must be received by OCRM on or before May 26, 2007.*

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT  
PERMIT APPLICATION PUBLIC NOTICE**

**May 11, 2007**

**Permit Number:** OCRM-07-855  
**Permit ID:** 58776

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

**APPLICANT:** Joseph H Etton  
Atlantic Marine Construction Co Inc  
372 County Shed Rd  
Beaufort SC 29906

**LOCATION:** On and adjacent to Broad Creek at 65 River Club Drive in Indigo Run, Hilton Head Island, Beaufort County, South Carolina.  
TMS#: R510-011-00D-0003-0000.

**WORK:** The work proposed consists of making additions to an existing private dock. Proposed is a 12'x14' jet ski float to the right of an existing 10'x45' floating dock. The purpose for the dock additions is for the owner's private recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

*To assure review by OCRM, comments regarding this application must be received by OCRM on or before May 26, 2007.*

**PLEASE REPLY TO:**

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT**  
**PERMIT APPLICATION PUBLIC NOTICE**

**May 11, 2007**

**Permit Number:** OCRM-07-856  
**Permit ID:** 58778

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

**APPLICANT:** Jonathan G Verity  
C/o Atlantic Marine Construction Co Inc  
372 County Shed Rd  
Beaufort SC 29906

**LOCATION:** On and adjacent to Beaufort River at 120 Spanish Point Drive, Beaufort, Beaufort County, South Carolina.  
TMS#: R120-007-000-0346-0000.

**WORK:** The work proposed consists of making additions to an existing private dock. Proposed is a 16'x16' covered fixed pierhead to replace a 12'x12' hexagonally. Channelward of the pierhead will be an existing 4'x23' ramp leading to 10'x20' floating dock. Between the pierhead and to the right of the existing float will be a 12.5'x13' 4 pile boatlift with a 3'x18' catwalk. Off the left of the existing floating dock will be an 11'x12' jet ski float. The purpose for the dock additions is for the owner's private recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

*To assure review by OCRM, comments regarding this application must be received by OCRM on or before May 26, 2007.*

## TO ALL INTERESTED PARTIES

### Notification of Public Notice

Enclosed are public notices issued by the SCDHEC Office of Ocean and Coastal Resource Management and the U.S. Army Corps of Engineers. All interested parties are allowed 30 days for major developments and 15 days for minor developments after receipt of the public notices to file written comments to the OCRM pertaining to the applications. Only those comments received within this period must be reviewed by the OCRM in processing the permit application. Any person wishing notification of the initial OCRM decision on any specific public notice must make written request within the designated review period for that public notice.

Refer to: P/N #2006-1457-2IR-7

February 9, 2007

Pursuant to Section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C. 403), Sections 401 and 404 of the Clean Water Act (33 U.S.C. 1344), and the South Carolina Coastal Zone Management Act (48-39-10 et seq.) an application has been submitted to the Department of the Army and the S.C. Department of Health and Environmental Control by

**CITY OF CHARLESTON**  
**LAURA CABINESS, DIRECTOR OF PUBLIC SERVICES**  
75 CALHOUN STREET  
CHARLESTON, SOUTH CAROLINA 29401-3506

for a permit to place fill in waters of the U.S., including wetlands adjacent to

**SEASIDE CREEK**

at two locations along Battleground Road on James Island, Charleston County, South Carolina. One location is at a James Island PSD pump station located 0.4 miles on the left side of Battleground Road after the intersection with Ft. Lamar Road (Latitude: 32.70413; Longitude: 79.95399). The second location is 0.1 mile on the left past the pump station. (Latitude: 32.70416; Longitude: 79.95310).

In order to give all interested parties an opportunity to express their views

**NOTICE**

is hereby given that written statements regarding the proposed work will be received by both of the above mentioned offices until

**12 O'CLOCK NOON, MONDAY, MARCH 12, 2007**

from those interested in the activity and whose interests may be affected by the proposed work.

The proposed work consists of placement of fill material, geotextile liner, bedding stone and riprap **OR** concrete mats at two areas where severe erosion and undercutting are jeopardizing a James Island PSD pump station at one location and Battleground Road at a second location. The project will involve cumulative impacts to 0.15 acres along approximately 340 feet of bank and include the placement of a total of 865 cubic yards of material. The applicant has considered a number of alternatives including a bulkhead. However, engineering constraints have rendered the bulkhead alternative infeasible. The purpose of the project is to repair the undercutting of the road and erosion of the creek bank and to prevent further erosion at the two locations noted above.

**NOTE:** Plans depicting the work described in this notice are available and will be provided, upon receipt of a written request, to anyone that is interested in obtaining a copy of the plans for the specific project. The request must identify the project of interest by public notice number and a self-addressed stamped envelope must also be provided for mailing the drawings to you. Your request for drawings should be addressed to the

**U.S. Army Corps of Engineers  
ATTN: REGULATORY DIVISION  
69A Hagood Avenue  
Charleston, South Carolina 29403-5107**

The District Engineer has concluded that the discharges associated with this project, both direct and indirect, should be reviewed by the South Carolina Department of Health and Environmental Control in accordance with provisions of Section 401 of the Clean Water Act. As such, this notice constitutes a request, on behalf of the applicant, for certification that this project will comply with applicable effluent limitations and water quality standards. The work shown on this application must also be certified as consistent with applicable provisions the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certifications are received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review.

This notice initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project would impact 0.15 acres of estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

Pursuant to Section 7(c) of the Endangered Species Act of 1973 (as amended), the District Engineer has consulted the most recently available information and has determined that the project is not likely to adversely affect any Federally endangered, threatened, or proposed species or result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request for written concurrence from the U.S. Fish and Wildlife Service and/or the National Marine Fisheries Service on this determination.

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), this public notice also constitutes a request to Indian Tribes to notify the District Engineer of any historic properties of religious and cultural significance to them that may be affected by the proposed undertaking.

In accordance with the NHPA, the District Engineer has also consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. To insure that other cultural resources that the District Engineer is not aware of are not overlooked, this public notice also serves as a request to the State Historic Preservation Office to provide any information it may have with regard to historic and cultural resources.

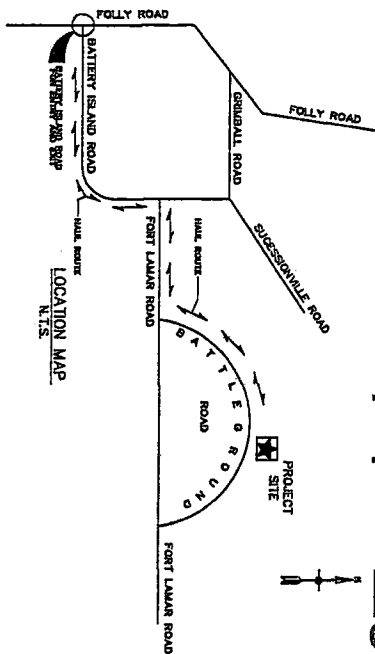

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest and will include application of the guidelines promulgated by the Administrator, Environmental Protection Agency (EPA), under authority of Section 404(b) of the Clean Water Act and, as appropriate, the criteria established under authority of Section 102 of the Marine Protection, Research and Sanctuaries Act of 1972, as amended. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the project will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production and, in general, the needs and welfare of the people. A permit will be granted unless the District Engineer determines that it would be contrary to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the activity.

If there are any questions concerning this public notice, please contact Robin Collier-Socha at 843-329-8044 or toll free at 1-866-329-8187.

Steve Brooks  
Project Manager

**MAY 4, 2007**

Pursuant to Section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C. 403), Sections 401 and 404 of the Clean Water Act (33 U.S.C. 1344), and the South Carolina Coastal Zone Management Act (48-39-10 et seq.) an application has been submitted to the Department of the Army and the S.C. Department of Health and Environmental Control by

**SEABROOK ISLAND POA**  
**C/O G. ROBERT GEORGE AND ASSOCIATES, INC.**  
**2411 SAVANNAH HIGHWAY**  
**CHARLESTON SOUTH CAROLINA 29414**

for a permit to construct a grounding dock, floating dock and place fill material within navigable waters of the United States in

**CAPTAIN SAM'S CREEK**

located at the terminus of Captain Sam's Road on Seabrook Island, Charleston County, South Carolina (Longitude 80.158292, Latitude 32.579585)

In order to give all interested parties an opportunity to express their views

**NOTICE**

is hereby given that written statements regarding the proposed work will be received by both of the above mentioned offices until

**12 O'CLOCK NOON, MONDAY, JUNE 4, 2007**

from those interested in the activity and whose interests may be affected by the proposed work.

The proposed work consists of reconstructing an existing boat ramp (previously issued under Department of the Army permit # 94-2D-053), constructing a concrete pad, grounding dock, and floating dock. The lower half of the existing boat ramp will be removed and an area, totaling 565 sq ft, (to include that of the boat ramp and grounding dock) will be excavated approximately 1.0 foot deep, re-shaped and re-graded. Approximately 12' X 24' of grooved concrete will be placed in the original boat ramp footprint and rip-rap will be placed in the remaining disturbed area, totaling 277 sq ft, under the proposed grounding dock and surrounding boat ramp. A 14' X 6' concrete level platform will be constructed to the east of the boat ramp leading to a grounding dock composed of two 6' X 10' floating docks which terminate with a 7' X 20' floating dock. The purpose of the proposed work is for community recreational use for the homeowners of Seabrook Island.

**MAY 4, 2007**

In addition, a boardwalk will connect an existing footbridge to an existing crab dock, crossing a water of the United States (tidally influenced) located to the east of the boat ramp as depicted on drawing sheets 3 and 13-18 of 18. The proposed boardwalk shown on the attached plans is not subject to a Department of the Army permit; however, it is subject to the permitting authority of the South Carolina Department of Health and Environmental Control's Office of Ocean and Coastal Resource Management and may be subject to the permitting authority of the U.S. Coast Guard.

**NOTE:** Plans depicting the work described in this notice are available and will be provided, upon receipt of a written request, to anyone that is interested in obtaining a copy of the plans for the specific project. The request must identify the project of interest by public notice number and a self-addressed stamped envelope must also be provided for mailing the drawings to you. Your request for drawings should be addressed to the

**U.S. Army Corps of Engineers  
ATTN: REGULATORY DIVISION  
69A Hagood Avenue  
Charleston, South Carolina 29403-5107**

The District Engineer has concluded that the discharges associated with this project, both direct and indirect, should be reviewed by the South Carolina Department of Health and Environmental Control in accordance with provisions of Section 401 of the Clean Water Act. As such, this notice constitutes a request, on behalf of the applicant, for certification that this project will comply with applicable effluent limitations and water quality standards. The work shown on this application must also be certified as consistent with applicable provisions the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certifications are received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review.

This notice initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project would impact less than 0.2 acres of estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

The District Engineer has consulted the most recently available information and has determined that the project will have no effect on any Federally endangered, threatened, or proposed species and will not result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request to the U.S. Fish and Wildlife Service and the National Marine Fisheries Service for any additional information they may have on whether any listed or proposed endangered or threatened species or designated or proposed critical habitat may be present in the area which would be affected by the activity, pursuant to Section 7(c) of the Endangered Species Act of 1973 (as amended).

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), this public notice also constitutes a request to Indian Tribes to notify the District Engineer of any historic properties of religious and cultural significance to them that may be affected by the proposed undertaking.

In accordance with the NHPA, the District Engineer has also consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. To insure that other cultural resources that the District Engineer is not aware of are not overlooked, this public notice also serves as a request to the State Historic Preservation Office to provide any information it may have with regard to historic and cultural resources.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest and will include application of the guidelines promulgated by the Administrator, Environmental Protection Agency (EPA), under authority of Section 404(b) of the Clean Water Act and, as appropriate, the criteria established under authority of Section 102 of the Marine Protection, Research and Sanctuaries Act of 1972, as amended. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the project will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production and, in general, the needs and welfare of the people. A permit will be granted unless the District Engineer determines that it would be contrary to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the activity.

If there are any questions concerning this public notice, please contact Elizabeth Jackson at 843-329-8044 or toll free at 1-866-329-8187.

for a permit to construct a fixed pier and pile supported travel lift in the

**COOPER RIVER**

at a location, adjacent to Drydock #4, off of Pierside Street in North Charleston, Charleston County, South Carolina.  
(Latitude 32° 51' 42" – Longitude 79° 57' 43")

In order to give all interested parties an opportunity to express their views

**NOTICE**

is hereby given that written statements regarding the proposed work will be received by both of the above mentioned offices until

**12 O'CLOCK NOON, MONDAY, JUNE 11, 2007**

from those interested in the activity and whose interests may be affected by the proposed work.

The proposed work consists of installation of a concrete pile supported pier and a concrete pile supported structure for use by a travel lift. The pier will be constructed with a "T" section at the end and will be complete with bull rails, fender system, bollards, cleats, fire protection, potable water, electrical and lighting. The concrete pile supported pier will be approximately 35' x 370'. The "T" section at the end will be approximately 50' x 200'. The structure for the travel lift will consist of two 10' x 150' concrete pile supported sections complete with bull rails. The purpose of the proposed work is for commercial use for staging vessels that utilize Drydock No. 4 and for the movement of heavy-lift cargo. The pier will be used by 90 ton hydraulic mobile cranes, vehicles, and tractor trailers. The "T" shaped end will allow for the vehicles and trailers to turn around and drive off the pier in lieu of backing the length of the pier. The travel lift structure will allow for boats

and small floating equipment to be lifted out of the water for landside maintenance and repair operations.

**NOTE:** Plans depicting the work described in this notice are available and will be provided, upon receipt of a written request, to anyone that is interested in obtaining a copy of the plans for the specific project. The request must identify the project of interest by public notice number and a self-addressed stamped envelope must also be provided for mailing the drawings to you. Your request for drawings should be addressed to the

**U.S. Army Corps of Engineers  
ATTN: REGULATORY DIVISION  
69A Hagood Avenue  
Charleston, South Carolina 29403-5107**

The District Engineer has concluded that the discharges associated with this project, both direct and indirect, should be reviewed by the South Carolina Department of Health and Environmental Control in accordance with provisions of Section 401 of the Clean Water Act. As such, this notice constitutes a request, on behalf of the applicant, for certification that this project will comply with applicable effluent limitations and water quality standards. The work shown on this application must also be certified as consistent with applicable provisions the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certifications are received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review.

This notice initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project should not impact estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

The District Engineer has consulted the most recently available information and has determined that the project will have no effect on any federally endangered, threatened, or proposed species and will not result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request to the U.S. Fish and Wildlife Service and the National Marine Fisheries Service for any additional information they may have on whether any listed or proposed endangered or threatened species or designated or proposed critical habitat may be present in the area which would be affected by the activity, pursuant to Section 7(c) of the Endangered Species Act of 1973 (as amended).

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), this public notice also constitutes a request to Indian Tribes to notify the District Engineer of any historic properties of religious and cultural significance to them that may be affected by the proposed undertaking.

In accordance with the NHPA, the District Engineer has also consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. To insure that other cultural resources that the District Engineer is not aware of are

11 MAY 2007

not overlooked, this public notice also serves as a request to the State Historic Preservation Office to provide any information it may have with regard to historic and cultural resources.

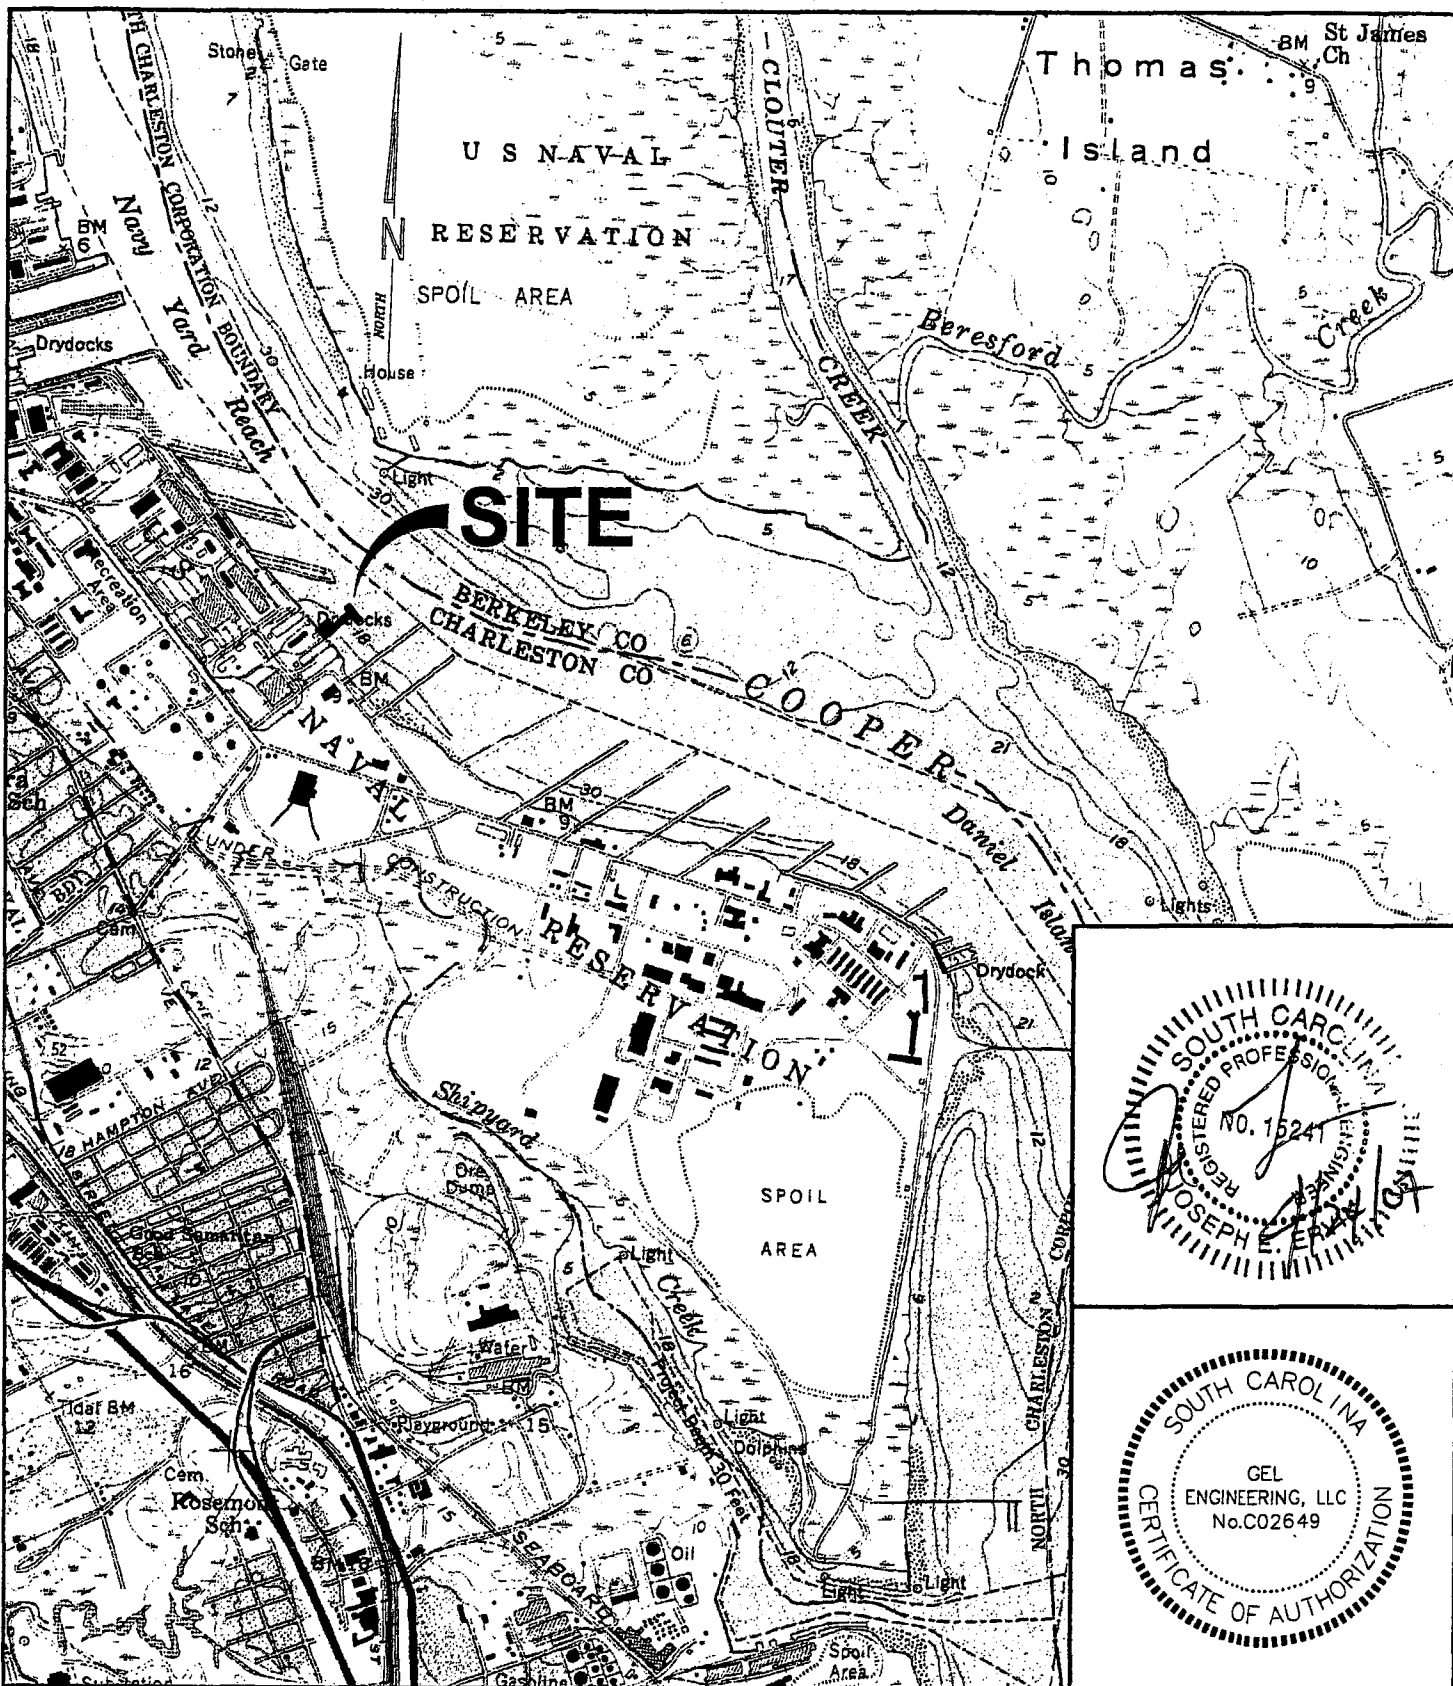

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the project will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production and, in general, the needs and welfare of the people. A permit will be granted unless the District Engineer determines that it would be contrary to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the activity.

If there are any questions concerning this public notice, please contact Mary Hope Glenn 843-329-8044 or toll free at 1-866-329-8187.

<b>Joint Federal and State Application Form For Activities Affecting Waters of the United States or Critical Areas of the State of South Carolina</b>	<b>This Space for Official Use Only.</b>  Application # <u>LD07-1664-216</u> Date Received: <u>MAY 12 2007</u> Project Manager: <u>Glenn</u>
<p><b>Authorities:</b> 33 USC 403, 33 USC 408, 33 USC 1341, 33 USC 1344, 33 USC 1413 and Section 48-39-10 et. seq of the South Carolina Code of Laws. These laws require permits for activities in, or affecting, navigable waters of the United States, the discharge of dredged or fill material into waters of the United States, and the transportation of dredged material for the purpose of dumping it into ocean waters. The Corps of Engineers and the State of South Carolina have established a joint application process for activities requiring both Federal and State review or approval. Under this joint process, you may use this form, together with the required drawings and supporting information, to apply for both the Federal and/or State permit(s).</p> <p><b>Drawings and Supplemental Information Requirements:</b> In addition to the information on this form, you must submit a set of drawings and, in some cases, additional information. A completed application form together with all required drawings and supplemental information is required before an application can be considered complete. See attached instruction sheets for details regarding these requirements. You may attach additional sheets if necessary to provide complete information.</p>

2. Applicant's Address. Post Office Box 70040 Charleston, South Carolina 29415	5. Agent's Address. Post Office Box 30712 Charleston, South Carolina 29417
3. Applicant's Contact Number (include area code). Cellular Phone: Business: 843-747-0548 FAX: 843-747-2728	6. Agent's Contact Number (include area code). Residence: Business: (843) 769-7378 FAX: (843) 769-7397
7. Project Title. New Pier and Travel Lift North Charleston, South Carolina	9. Project Location. North Charleston, South Carolina Latitude: 32° 51' 42" N Longitude: 79° 57' 43" W
8. Nearest Waterbody to project site (if known). Cooper River	
10. Directions to the Site (attach additional sheets if needed). From Charleston, <i>See attached</i>	
11. Description of the Overall Project and of Each Activity In or Affecting U.S. Waters or State critical areas (attach additional sheets if needed).  <i>See attached</i>	
12. Overall Project Purpose and the Basic Purpose of Each Activity In or Affecting U.S. Waters (attach additional sheets if needed).  <i>See attached</i>	

Revision May 1995

**10. Directions to Site:**

From Charleston, travel north on East Bay Street; East Bay Street turns into Morrison Drive. Continue on Morrison Drive and turn right on to Meeting Street Extension. Continue on Meeting Street Extension and bear right on to Spruill Avenue. Continue on Spruill Avenue and turn right on to McMillan Avenue. At the stop light, turn right on to North Hobson Avenue and continue to Supply Street. At Supply Street, turn left and continue to Pierside Street. At Pierside Street, turn right and the site will be on your left just before the next curve in the street. Please contact Larry Setzler if further directions are needed.

**11. Description of the Overall Project and of Each Activity In or Affecting U.S. Waters or State critical areas:**

The proposed project involves, but is not limited to, the installation of a concrete, pile supported pier and a concrete, pile supported structure for use by a travel lift. The pier will be constructed with a "T" section at the end and will be complete with bull rails, fender system, bollards, cleats, fire protection, potable water, electrical, and lighting. The concrete, pile supported pier will be approximately 370 feet long and 35 feet wide. The "T" section at the end will be approximately 200 feet long and 50 feet wide. The structure for the travel lift will consist of two concrete, pile supported sections approximately 150 feet long and 10 feet wide. The structure will be complete with bull rails.

**12. Overall Project Purpose and the Basic Purpose of Each Activity In or Affecting U.S. Waters:**

The property is presently being utilized as a marine terminal and shipyard. The property has waterfront access, one drydock, and landside space for maintenance and repair of boats, barges, and other small floating equipment.

The overall purpose of the pier will be for staging vessels that utilize Drydock No. 4 and for the movement of heavy-lift cargo. The basic design of the pier will be for the use of 90 Ton hydraulic mobile cranes, vehicles, and tractor trailers. The "T" shape at the end will allow for the vehicles and trailers to turn around and drive off the pier in lieu of backing the length of the pier. The travel lift structure will allow for boats and small floating equipment to be lifted out of the water for landside maintenance and repair operations.
